

ORBCOMM RECOGNIZED AS A CISCO ADVANCED INTERNET OF THINGS INDUSTRY EXPERT SPECIALIZED PARTNER FROM CISCO IN THE UNITED STATES

Rochelle Park, NJ, September 3, 2015 – ORBCOMM Inc. (Nasdaq: ORBC), a global provider of Machine-to-Machine (M2M) solutions, today announced that it has achieved the Advanced Internet of Things (IoT) Industry Expert Specialization from Cisco. The designation recognizes ORBCOMM as having fulfilled the training requirements and program prerequisites to sell, deploy and support Cisco IoT Industry Expert products and solutions.

The Cisco Advanced IoT Industry Expert Specialization enables partners to combine their Operations Technology (OT) experience with Cisco IT networking knowledge. IoT Industry Expert Specialized Partners have experience working in industries such as manufacturing, energy and utilities, travel and transport, and/or connected safety and security. They have an understanding of Cisco products and concepts to be able to provide their customers the IoT solution they need.

“It’s an honor to achieve Cisco’s IoT industry expert specialization and be part of their elite group of partners, which is a testament to ORBCOMM’s leadership and excellence in delivering world-class wireless products and services,” said Marc Eisenberg, ORBCOMM’s Chief Executive Officer. “As a Cisco Select Certified Partner, ORBCOMM will facilitate the seamless deployment of IoT solutions, including LTE and xLTE, to a broader set of customers and markets around the world. Our cost-effective, turn-key business continuity and wireless mobility solutions will provide the ongoing management of connectivity services to ensure companies big and small can conduct business normally and prevent lost revenue when their primary network fails.”

To earn the Advanced IoT Industry Expert Specialization, ORBCOMM fulfilled Cisco training and exam requirements. ORBCOMM also met the personnel and post-sales support requirements set forth by Cisco.

The Advanced IoT Industry Expert is part of the [Cisco® Channel Partner Program](#). The program provides partners with the training and technical expertise they need to sell Cisco products and solutions.

The Internet of Things

The Cisco Internet of Things (IoT) platform is inspiring a new breed of intelligent applications. Without starting from scratch, businesses can integrate disparate machines, devices and networks with a high degree of security. The connection of devices, machines and things allows you to dynamically generate, analyze, and communicate intelligence data; increase operational efficiencies; and power new and greatly improved business models.

About ORBCOMM Inc.

ORBCOMM Inc. (Nasdaq: ORBC) is a leading global provider of Machine-to-Machine (M2M) communication solutions and the only commercial satellite network dedicated to M2M. ORBCOMM's unique combination of global satellite, cellular and dual-mode network connectivity, hardware, web reporting applications and software is the M2M industry's most complete service offering. Our solutions are designed to remotely track, monitor, and control fixed and mobile assets in core vertical markets including transportation & distribution, heavy equipment, industrial fixed assets, oil & gas, maritime, mining and government.

With nearly 20 years of innovation and expertise in M2M, ORBCOMM has more than 1.3 million subscribers with a diverse customer base including premier OEMs such as Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery Co., Ltd., John Deere, Komatsu Ltd., and Volvo Construction Equipment, as well as end-to-end solutions customers such as C&S Wholesale, Canadian National Railways, CR England, Hub Group, KLLM Transport Services, Marten Transport, Swift Transportation, Target, Tropicana, Tyson Foods, Walmart and Werner Enterprises. Forward-Looking Statements

Certain statements discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally relate to our plans, objectives and expectations for future events and include statements about our expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts. Such forward-looking statements, including those concerning the Company's expectations, are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from the results, projected, expected or implied by the forward-looking statements, some of which are beyond the Company's control, that may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. In addition, specific consideration should be given to various factors described in Part I, Item 1A. "Risk Factors" and Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2014, and other documents, on file with the Securities and Exchange Commission. The Company undertakes no obligation to publicly revise any forward-looking statements or cautionary factors, except as required by law.
